Welcome Message

Dear Colleagues,

Greetings from OFCON 2020!!

On behalf of the organizing committee of OFCON 2020, it is our proud privilege to invite you to for the Annual Conference of Oncology Forum, OFCON 2020. It will be held on 4th, 5th & 6th December 2020. In view of the prevailing pandemic, the conference has been organized in a fully virtual mode.

The annual conference of Oncology Forum focuses on a single theme every year. This year the theme is geriatric oncology. The proportion of cancers in the geriatric population is significant and constantly rising due to improving life expectancy. One of the major problems in geriatric oncology is lack of scientific data and evidence. Most of the decisions that we make are extrapolations from our thought process in the younger age cancer patients.

The conference has many general sessions that focus on issues common to all geriatric cancer patients. In addition, there are sessions focusing on individual cancers that are relatively more common in the geriatric patients. We hope that the event will sensitize all of us to the importance of geriatric oncology and make us acutely aware of the fact that we need to learn more about geriatric cancers.

We request you to join the conference and participate in the sessions that interest you most based on your personal practice profile.

Looking forward to see you in the event,
